PROFILE SUMMARY

Experienced Flutter & Full-Stack Developer with 8+ years in building high-performance, cross-platform mobile and web applications. Proficient in Flutter, Angular, Node.js, Dart, TypeScript, and MySQL, with a proven record of launching 10+ apps on Android and iOS, totaling over 50K+ downloads.

Skilled in scalable architecture design, RESTful API integration, and domain-driven UI/UX development. Focused on delivering user-centric, maintainable, and innovative software solutions.

- **Flutter:** Proficient in building cross-platform (Android & iOS) mobile applications using Stateless and Stateful Widgets, with a focus on responsive UI, performance optimization, and platform integration.

- **Angular**: Experienced in creating Single Page Applications (SPA) using core Angular concepts such as Components, Modules, Services, Templates, Directives, and Dependency Injection, ensuring scalable and maintainable front-end architecture.

- **RESTful API & Backend Frameworks:** Experienced in creating RESTful APIs using PHP (Yii Framework), Node.js, and Java (Spring Boot), ensuring secure, scalable, and maintainable back-end services for web and mobile applications.

PROFESSIONAL EXPERIENCE

NRD TECH   Coimbatore
Flutter Developer   Feb 2025 - Present

- Developed SMRT mobile application for meter reading across Android and iOS platforms.
- Delivered two key modules: one live in Play Store and App Store; the second in internal testing.
- Enabled domain-based white-labeling, allowing one app to serve multiple companies.
